

Comtech Flakes EP

Decorative Color Chips Epoxy Flakes Floor Coatings.

Description:

Comtech Flakes EP is a decorative signature blend colorful flakes for epoxy floor coating.

It gives the positive impression at first glance.

It can give a non slip surface when spread at heavenly on epoxy floor coatings.

Comtech Flakes EP size is 5-7mm.

- The colorfast pigments used in flake are UV stable.
- Benefits of **Comtech Flakes EP** flooring are its durability which comes with abrasion resistance.
- It's a cost-effective alternative to other floor systems.
- It can be refinished with a new topcoat after years of use.
- Smooth decorative surface when needed.

Uses & advantages:

- **Comtech Flakes EP** hides imperfections and are hard to damage as they enhance design of floors and other surfaces by adding aesthetic qualities to your interiors.
- **Comtech Flakes EP** enhances performance of commercial and residential floor surfaces including garages, basements, shop floors, retail spaces, laundry rooms, bathrooms, exercise rooms and gyms.
- **Comtech Flakes EP** are composed of resin materials, organic minerals, additives and pigments that were field-tested with colored epoxies epoxy resin systems.

Method of use:

Comtech Flakes EP should be spread immediately after the application of epoxy floor coating like Comtech Build EP15 / Comtech Top EP10 (While it is wet)

The spreading ratio can be decided only by the decorative finish required (50 to 500 gram/mm²).

When a non slip surface is required **Comtech Flakes EP** should be spread to a fully broadcast saturate the floor coating.

Leave it overnight then remove all the excessive or loose quantities of **Comtech Flakes EP** by steel scraper or vacuum.

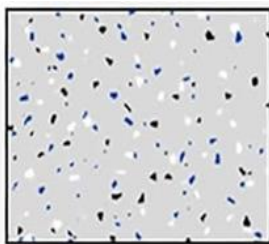

Then apply a clear final coat of Comtech Prime EP20.
